## **DETAILED ACTION**

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by PCT WO 01/94820 to Ransom.

The Ransom reference discloses a pipe segment (20) having a pair of ends, a back-up flange (30) placed over an end of the pipe, a socket stub (28) placed on the end of the pipe and affixed to the pipe. A liner (10) is received within the pipe. It is disclosed that the liner is fitted to each end of the length of the pipeline, being pulled through the pipeline from one end, trimmed to length and its ends are secured and sealed to the outer ends of the socket stub, thereby forming a gasket. The socket stub end has a predetermined vent hole (40) having an inlet opening located behind the socket and an outlet opening located behind the stub end, whereby permeated gases trapped between the pipe and the liner can be vented there through.

Art Unit: 3754

## Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Brittain et al. '449 and '499, Ledoux et al., McMillan et al. and Graves et al., are pertinent to Applicant's invention in disclosing flanged pipe ends, the ends including vent openings.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Patrick F. Brinson** whose telephone number is (571) 272-4897. The examiner can normally be reached on M-F 7:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, **Michael Y. Mar** can be reached on (571) 272-4906. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
